

# LED WALL MOUNT SPECIFICATIONS

...

## DESCRIPTION

The LED Wall Mount Panel system has an aluminum frame and is mounted against a wall using light-weight aluminum cleats, holding it perfectly in place. The frame has an acoustical core center and is wrapped with an acoustically transparent printed fabric up to 100 feet long that is inserted into the frame using an SEG technology. The fabric can be dry-cleaned or easily interchanged. The frame comes in aluminum silver, black or white color options and the entire panel is Class A Fire rated and 0.8 NRC Acoustic rated.

## FEATURES

- Product is flush against the wall
- Hardware is not visible
- Seamless fabric up to 100' long
- Panels will not move

## ART OPTIONS

- CoArt Ready-Made Art Collections
- CoArt Custom Art
- Client Supplied Art
  - Vector file is preferred. If not, art must be actual size and at least 100 dpi.

## HARDWARE

- Anodized Aluminum Cleats

## FABRIC

- Material: Seamless Dye Sublimated Triple White
- Accessibility: Removable Fabric
- Washable: Dry-clean Only

## ACOUSTIC

- Depth: 0.5"
- Material: 100% Woven Polyester Fiber
- Recycled Content: Made of 65% post-consumer content

## INSTALLATION

- Wall cleat system included for easy install
- Option for professional install

## SPECIFICATIONS

- Acoustic Performance: NRC 0.8
- Fire Rating: Class A
- Water Vapor Sorption: < 0.4% by weight - Non-hygroscopic
- Weather Resistance: ATM C 1338 -08-Standard Test Method Passed
- Recycled Content: 0.80 NPC

## FRAME

- Depth: 3.5"
- Color Options:
  - o Anodized Aluminum
  - o White Powder-Coated Aluminum
  - o Black Powder-Coated Aluminum
  - o Custom Powder-Coated Color Option
